

Engineering the Future of Ammonia and its Derivatives

**Mysore Ammonia
Envirotech Pvt Ltd.**

Our Focus

As EPC - Design,
Engineering and Projects
Execution and as PMC
for Design & Engineering

Anhydrous Ammonia
- NH_3 Storage and
Handling Systems

Ammonium Hydroxide-
 NH_4OH (Aqueous
Ammonia / Ammonia
Dilution) Production Plants
(Up to 29% Concentration)

Manual &/or Automatic
 NH_3 & NH_4OH Filling
Systems

In-Plant or Cross-Country
Insulated or Non-insulated
Pipelines

Modular System Design
& Engineering with
Regulatory Approvals

Anhydrous Ammonia (NH_3) Design & EPC Projects

Tanks

Compressors

Pumps

Vaporizers

**Scrubbers &
Safety Systems**

**PLC-Automation
& Electrical**

Ammonia Dilution (NH_4OH) Technology

(Ammonium Hydroxide / Ammonia Solution)

**PLC-driven Automated,
Continuous & Safe
Dilution process**

**PLC-driven, safe,
batch process**

**Conventional, safe manual
process with in-house
design-engineering**
